RENTAL RANGF

HIMOINSA Company with quality certification ISO 9001

HIMOINSA gensets are compliant with EC mark which includes the following

- 2006/42/CE Machinery safety.
 2014/30/UE Electromagnetic compatibility.
 2014/30/UE electrical equipment designed for use within certain voltage limits
 2000/14/EC Sound Power level. Noise emissions outdoor equipment. (amended by
- 2005/88/EC)

 97/68/EC Emissions of gaseous and particulate pollutants. (amended by 2012/46/EU)

 EN 12100, EN 13857, EN 60204

Ambient conditions of reference according to ISO 8528-1:2018 normative: 1000 mbar, 25°C, 30% relative humidity.

Prime Power (PRP):
According to ISO 8528-1:2018, Prime power is the maximum power which a generating set is capable of delivering continuously whilst supplying a variable electrical load when operated for an unlimited number of hours per year under the agreed operating conditions with the maintenance intervals and procedures being carried out as prescribed by the manufacturer. The permissible average power output (Ppp) over 24 h of operation shall not exceed 70 % of the PRP.

Emergency Standby Power (ESP):
According to ISO 8528-1:2018, Emergency standby power is the maximum power available during a variable electrical power sequence, under the stated operating conditions, for which a generating set is capable of delivering in the event of a utility power outage or under test conditions for up to 200 h of operation per year with the maintenance intervals and procedures being carried out as prescribed by the manufacturers. The permissible average power output over 24 h of operation shall not exceed 70 % of the ESP

Continuous Power (COP): According to Standard ISO 8528-1:2018, this is the maximum power available for continuous loads for unlimited running hours a year between the maintenance times recommended by the manufacturer under the environmental conditions established by the same.

G2 class load acceptance in accordance with ISO 8528-5:2013

Himoinsa has the right to modify any feature without prior notice.

Weights and dimensions based on standard products. Illustrations may include optional equipment.

Technical data described in this catalogue correspond to the available information at the moment of printing.

The illustrations and images are indicative and may not coincide in their entirety with the product.

Industrial design under patent.

Engine Specifications | 1.500 r.p.m.

Rated Output (PRP)	kW	59,8
Rated Output (ESP)	kW	65,8
Manufacturer		FORD
Model		RSG862
Engine Type		4-stroke Otto Cycle
Injection Type		Carburization
Aspiration Type		Turbocharged
Number of cylinders and arrangement		8-V
Bore and Stroke	mm	102 x 95
Displacement	L	6,2
Cooling System		Liquid (water + 50% glycol)
Lube Oil Specifications		API SJ/SH, SAE 5W-20
Compression Ratio		9,8:1

Fuel Consumption ESP	kg/h	15,1
Fuel Consumption 100% PRP	kg/h	13,9
Fuel Consumption 75 % PRP	kg/h	11,1
Fuel Consumption 50 % PRP	kg/h	8,3
Fuel Consumption 25 % PRP	kg/h	5,3
Total oil capacity including tubes, filters	L	6,6
Heat dissipated by coolant	kW	40,6
Governor	Type	Electrical
Air Filter	Type	Dry

- LPG Engine (Optioon of working with NG, to consult)
- 4-stroke cycle
- Water-cooled
- 12V electrical system
- Dry air filter
- Radiator with pusher fan
- HTW sender
- LOP sender

- Electronic governor
- Hot parts protection
- Moving parts protection

Generator Specifications | MECC ALTE

Manufacturer		MECC ALTE
Model		ECP32 3L/4 B
Poles	No.	4
Connection type (standard)		Star-series
Mounting type		S-3 11"1/2
Insulation	Class	H class
		-

Enclosure (according IEC-34-5)	IP23
Exciter system	Self-excited, brushless
Voltage regulator	A.V.R. (Electronic)
Bracket type	Single bearing
Coupling system	Flexible disc
Coating type	Standard (Vacuum impregnation)

- Self-excited and self-regulated
- AVR governor
- IP23 protection
- H class insulation

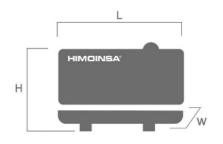

WEIGHT AND DIMENSIONS

		Standard Version
Length (L)	mm	2.810
Height (H)	mm	2.358
Width (W)	mm	1.150
Maximum shipping volume	m³	7,62
Weight with liquids in radiator and sump	Kg	2335
Autonomy	Hours	Ask
Sound pressure level	dB(A)@7m	61 ± 2,4

APPLICATION DATA

EXHAUST SYSTEM

Exhaust Gas Flow	m³/min	12
Exhaust Flange Size (external diameter)	mm	90

STARTING SYSTEM

Nominal starter current	А	750	

NECESSARY AMOUNT OF AIR

Intake air flow	m³/h	137,1
Cooling Air Flow	m³/s	1,35
Alternator fan air flow	m³/s	0,197

FUEL SYSTEM

Fuel Oil Specifications		LPG
Lower heating value (LHV)	kWh/kg	12,88
Composition *		95% Propane
Fuel supply connection size	Inches	1,5
Fuel supply pressure	mbar	30 - 300

- · Steel chassis
- Anti-vibration shock absorbers
- External emergency stop switch
- Bodywork made from high quality steel plate
- High mechanical strength
- Low noise emissions level
- Soundproofing provided by high-density volcanic rock wool
- Epoxy polyester powder coating
- Full access for maintenance (water, oil and filters, no need to remove the canopy)
- Reinforced lifting hooks for crane hoisting

- Soundproofed version
 - Watertight chassis (acts as a double barrier against liquid retention)
 - Chassis drain plug
 - Steel residential silencer -35db(A) attenuation.
 - Oil sump extraction kit
 - IP Protection according to ISO 8528-13:2016

Gas ramp

- Gas filter
- Double solenoid valve
- High pressure regulator
- Low pressure switch
- High pressure switch
- Inlet pressure manometer
- Outlet pressure manometer
- Special Start/Stop sequence

CONTROL PANELS

M5

Digital manual Auto-Start control panel and thermal magnetic protection (depending on current and voltage) and differential with CEM7.

Digital control unit CEM7

- Electric control and power panel with measurements devices and control unit (according to necessity and configuration)
- 4-pole thermal magnetic circuit breaker
- Adjustable earth leakage protection (time & sensitivity) standard in M5 and AS5, with thermal magnetic protection
- Battery charger (standard on gensets with automatic control panels)
- Heating resistor (standard on sets with automatic control panels)
- Battery charger alternator with ground connection

Electrical system

- Starter battery/ies installed (cables and bracket included)
- Ground connection electrical installation with connection ready for ground spike (not supplied)
- Battery Switch (Opcional).
